

Balarandran A/L K.K.Pillai

I was referred by Hospital University Kebangsaan Malaysia in year of 2008.

The Hearing solution Company Sdn Bhd recommended me the Phonak Hearing Aids, Extra 33 Power.

I am very pleased with it.

The Phonak Hearing Aids are comfortable, greatly enhanced my hearing and almost totally invisible.

They are fitted properly into my ears and people would not realize that I am wearing the hearing aid.

My life was totally changed after I wore on the Hearing Aids. There are improvements on my hearing hence I don't need to strain myself during a conversation especially when talking to the people who spoke in low volume. The speech clarity is very good. These Hearing Aids are really worth for money!

Your after sales care is also be recommended. I have, and will recommend your services to anyone.

I just wanted to let you know that I am very satisfied and thank you for giving me back the ability to hear.
