

Gilbert Dielenberg

I had suffered from hearing loss for many years and often missed out from the conversation, which caused much consternation amongst my family members. My repeatedly uttered phrase of Pardon Me was resulting in exasperated looks and finally I was persuaded to have my hearing checked out at the University Malaya Medical Centre in Kuala Lumpur

The kind & experience staff at the UMMC referred me to The Hearing Solution Company Sdn Bhd and I was pleasantly surprised at the very friendly and obliging service they provided. They recommended that I try the Bernafon BTE Hearing Instrument. From the first day I used this Hearing Instrument, my life has truly turned around!

This hearing instrument is easy to use and I had saved myself from all the trouble. I am so glad that I visited The Hearing Solution Company Sdn Bhd sooner rather than later.
