

**Veloo @ Elappen A/L Iralandri Nadar with his daughter Mani Mala Veloo From Kepong, Kuala Lumpur**

I am a diabetic patient aged 73, when day past by I gradually lost my hearing. My life becomes terrible and horrible in the sense that I hear nothing surrounding me either people talking, chit-chatting or whispering. Then, I was told by a doctor that I need to wear the Hearing Aids

After The Hearing Solution Company Sdn Bhd recommended me the Phonak Hearing Aids, I do not feel any hearing problem or difficulty. I now have excellent hearing socially, personally, at all times, even in crowded and noisy surroundings. I can enjoy my favorite TV shows, news broadcasting as well. Its truly miraculous. My life is now carefree. I can take the public transport with no worries, especially travelled by KTM train. I can hear the train schedule announcement very clear

I appreciated that the hearing aids help me successfully cope in the hearing world. At present, I and my hearing aids have become close friends indeed! Thanks to The Hearing Solution Company Sdn Bhd.
