

"About two years ago I arrived in Singapore with a broken hearing aide. Quite by accident I walked by the Carlton Hotel and "Hearing Solutions". What a lucky day! They helped me evaluate my dysfunctional aide and after getting over the shock of their recommendation to replace them and the the price for new ones, I decided to follow up on their recommendation. Not only have I been very happy with my new hearing aids - but what is even more important to me is the fantastic follow-up support. Hearing aides are tricky gadgets and sometimes need minor adjustments or some instructions or encouragement to the users (particularly stubborn elderly ones!) In this respect too, "Hearing Solutions" and in particular my hearing consultant, Lawrence Tan, have been exceptional and very generous. So I say: you get what you pay for and often much more. I am so glad I initially made the right decision. Thanks Lawrence and Hearing Solutions."

See you soon.
